UNDERSTAND GAPS IN PROGRESS

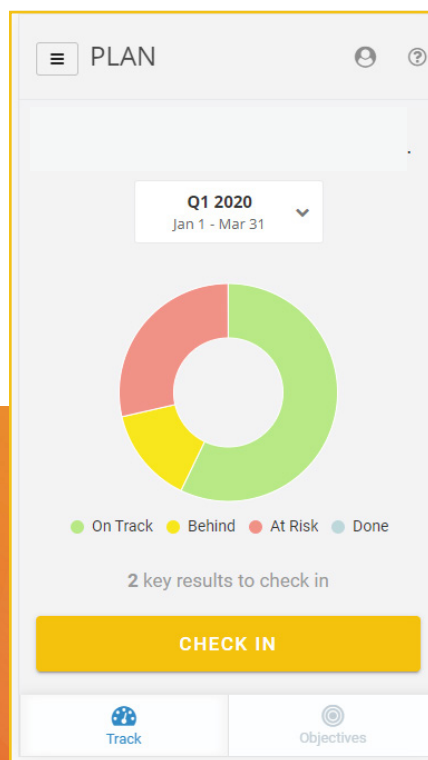

A gap in progress is not about pointing fingers, it is about finding the root of the issue, and solving the related problem.

KEEP GOALS TOP OF MIND

Goals are not a "set it and forget it" scenario. Instead, goals are updated and reviewed on a regular basis.

COACHES: PLANS ARE CRUCIAL TO FRANCHISEE GROWTH

Planning is important in any business, but in a franchising model, where franchisee motivation is key to success, it is even more valuable. Whether on their own or with their coach, using the FranchiseBlast Business Planning tool, the franchisee can stay focused on the things that matter most to both them individually and the system as a whole. This harnesses the power of entrepreneurship in a positive way for everyone creating a win-win scenario for franchisor and franchisee alike.
